Instructions

^ COLLAPSE ^

Overview Video: https://youtu.be/LQwyAhmNzoQ

- Create a repository on github, use the format ucid-course-section as the repository name.
- 2. Make sure it's set to private
- Go to Settings -> Manage Access -> Invite Collaborator -> Search for my ID MattToegel and send an invite; if your section has a grader do the same for their github username (refer to course announcements)
 - Note: Once in a while the invite doesn't get created correctly and you'll need to resend it, keep an eye on the acceptance of the invite since this is required for further HW validations. A comment will be left on Canvas for the submission if the invite is missing at the time of grading).
- 4. From the terminal / command line create a new branch called M1-GettingStarted
- Create a README.md file and add it to the branch
- Fill in some basic details:
 - Course/Section
 - Your name (first is fine)
 - Brief info about yourself you'd like to share
- Hint after creating the file
 - git add README.md
 - git commit -m "my readme file"
 - 3. git push origin M1-GettingStarted
 - Create a pull request from this branch (via github.com)
 - Don't merge/close the pull request yet
- Fill in the below deliverables.
- 9. Once finished, ensure it's saved and click the "Export" button.

- 10. Move the generated PDF into your local repository folder at any location of your choosing.
- 11. Do the following commands
 - 1. git add . (this will add all changes)
 - 2. git commit -m "adding output file"
 - 3. git push origin M1-GettingStarted
- 12. Go back to github and merge the pull request that was opened
- 13. Go to Canvas and upload the same PDF that you just downloaded and pushed to GitHub

Note: Having the submission saved and active keeps it eligible for grading.

Branch name: M1-GettingStarted

Group

Group: IDE Setup Evidence

Tasks: 1 Points: 2

^ COLLAPSE ^

Task

Group: IDE Setup Evidence
Task #1: Required Extensions

Weight: ~100% Points: ~2.00

Tasks: 2 Points: 6

^ COLLAPSE ^

Task

Group: Reflection

Task #1: Talk about what you learned during this module, anything interesting, new, etc.

Weight: ~50% Points: ~3.00

^ COLLAPSE ^

Details:

Should be at least a few sentences for full credit

■ Task Response Prompt

Response:

I learn to create file with git with nano and how to add, commit, and push the branch to the git hub. I also learn how to make pull requests on github.

End of Task 1

Task

Group: Reflection

Task #2: Did you have any issues? If so, how did you resolve them? If no issues, just type "no

issues"

Weight: ~50% Points: ~3.00
